Adult and Junior Private lessons- Private golf lessons provide a one-on-one atmosphere in our new private lesson area. Adult lessons are either 30 or 45 minutes in length while junior private lessons are 30 minutes. Junior lessons will be tailored to the golfers age and level of expertise. I will provide video analysis and golf balls are included in every lesson. It is highly recommended to purchase a series of lessons so we can work on every aspect of the game. I will help you customize your own practice plan to optimize success! If purchasing a series, lessons are good for one calendar year.

On Course Playing lessons- What better way to learn how to manage the course and “play like the pros” than taking a one hour playing lesson. We usually get four or five holes of golf in. I will take you through a proper warm up and help you manage the course (and your game) the way the pros do! This can be for anywhere from 1 to 3 people.

Adult Semiprivate Lessons (2-5 people) Semi-private hour lessons provide golf instruction in a group setting. Every effort will be made to have the lesson take place in our new private teaching area. Each semiprivate lesson will be tailored to the group and level of ability. Most semiprivate lessons work on multiple aspects of the game. It will be completely tailored to your group. Video analysis (if you’d like) and golf balls are included with each hour lesson.

Junior Semiprivate Group Lessons (2-5 people)- Are **45 minutes** in length. Same course description as adults. I will provide golf instruction in a class setting. Each junior semiprivate lesson will be age appropriate in a safe and fun atmosphere.
